

# Task 11 - Convert a Report into a Presentation Outline

## Context

I need to present the combined Q3 customer and engineering findings to senior management.

## Role

Act as a presentation strategist and executive communications expert.

## Task

Convert the Q3 report into an 8-slide presentation outline.

## Format

For each slide give a title and maximum 30 words of content.

## Constraints

Use only the Q3 findings. Flow must follow Hook -> Context -> Problem -> Solution -> CTA. Add speaker notes only for slides 3 and 5.

## Report-to-Presentation Prompt

Act as a presentation strategist and executive communications expert. Convert the Q3 customer feedback and engineering report into an 8-slide outline for senior management. Use a maximum of 30 words per slide and follow Hook -> Context -> Problem -> Solution -> Evidence -> CTA. Use only source facts. Add speaker notes for slides 3 and 5.

## Quality rating

5 - Excellent

## Slide needing most editing

Slide 8 needed the most editing because the call to action had to be very clear and based only on the source findings.

| Slide | Title                                           | Flow     | Under 30 words? | Speaker Note? |
|-------|-------------------------------------------------|----------|-----------------|---------------|
| 1     | Q3: Strong Delivery, Clear Customer Pain Points | Hook     | Yes             | No            |
| 2     | Customer and Engineering Snapshot               | Context  | Yes             | No            |
| 3     | Report Performance Is the Main Customer Issue   | Problem  | Yes             | Yes           |
| 4     | Mobile Reliability Is a Second Major Risk       | Problem  | Yes             | No            |
| 5     | Focus Resources on Report and Mobile Quality    | Solution | Yes             | Yes           |
| 6     | Keep QA in Sprint Planning                      | Solution | Yes             | No            |
| 7     | Evidence of Delivery and Security Progress      | Evidence | Yes             | No            |
| 8     | Prioritize the Two Customer-Facing Risks        | CTA      | Yes             | No            |
