

Task 7 - Write an Executive Memo Using AI

I chose Scenario

Scenario A - Cloud migration.

Context

The IT department wants to move from on-premise servers to cloud. Expected cost reduction is 15%, timeline is 6 months, and the migration risk window is 2 weeks.

Role

Act as a senior IT strategy advisor writing for the CEO.

Task

Write an executive memo recommending approval of the cloud migration.

Format

TO / FROM / DATE / SUBJECT, recommendation first, 3-4 rationale bullets, then next steps table.

Constraints

Under 300 words, simple executive language, use only the provided facts.

Executive Memo

TO: CEO

FROM: IT Department

DATE: Today

SUBJECT: Approval for Cloud Migration

Recommendation: Approve the proposed migration from on-premise servers to cloud infrastructure.

Rationale:

- Expected operating cost reduction of 15%.
- Six-month implementation timeline provides a controlled transition period.
- Cloud adoption can reduce dependence on current on-premise infrastructure.
- The main identified risk is a two-week migration window and should be actively managed.

Next Steps: IT prepares the migration plan and risk controls; management confirms approval; the project begins after approval.
